Program

Winter Semester 22 / 23

Welcome, Graduate Students & Postdocs!

View our program for your professional development needs with events on writing, research and data analysis, presentation skills teaching and career management.

Our workshops and lectures “go hybrid” this fall, planning status is October 2022 – so please visit our homepage regularly for updates!

Registration for the courses is detailed in the program. The course title indicates the course language. Places will be allocated on a first come first served basis. Your registration is binding.

SCIENTIFIC INTEGRITY

At Hochschule Geisenheim we are required and actively committed to the prevention of research misconduct as well as to working arte legis. That's why Graduate Scholl offers workshops on scientific integrity on a regular basis. You should consciously explore the rules of responsible conduct of research from the very beginning of your research endeavors and writing process eliminating any possibility of misconduct in dealing with data and references ensuring your work to be impeccable.

SIGN UP NOW

**Scientific Integrity Workshop
on 22 & 23 Feb 2023!**

SCIENTIFIC WRITING TUTORIALS

The ability to write well in a variety of genres to different audiences from seminar papers and grant proposals to dissertations and research publications will be key to success and to your career. For the attendance of the tutorials please join us on Greenlight.

Lecturer: Dr. Markus Elsner

<https://vc-green.hs-gm.de/b/dan-ygh-d3n-2jc>

TEACHING SKILLS

Expanding your toolbox of instructional techniques will be beneficial regardless of the career you choose. For those interested in teaching-related careers, developing teaching skills has obvious value, but if you plan to pursue jobs outside of academia, instructional techniques can broadly help cultivate important skills such as oral communication, active listening, managing teams, and problem solving.

www.hs-geisenheim.de/en/university/organization/administrative-units/university-didactics-elearning/

LITERATURE MANAGEMENT

The literature management program **CITAVI** is available as an ILIAS course unit via the library. CITAVI helps with all that's necessary for scientific literature work: from research to knowledge organization, task planning and creating the bibliography.

Work through the CITAVI course by yourself and go into more detail making a personal appointment at the library.

www.hs-geisenheim.de/bibliothek/citavi/

RESEARCH DATA MANAGEMENT

Digital research data is a special knowledge resource that ensures the traceability of research results whilst leading to new insights, e.g. if reused by other researchers. Active data management also offers advantages in everyday research, beginning with the sorting and backup of the data in the working group. Self-learning units on research data management are available on ILIAS at HGU:

https://ilias.hs-gm.de/goto.php?target=cat_10057&client_id=iliasprod

Please also explore further workshops and data talks of HeFDI Data School in the program or via:

www.uni-marburg.de/de/hefdi/hefdi-data-school-2022-1

CAREER ORIENTATION & EXPLORATION

Graduate School strongly supports the career development especially in light of the increasing differentiation on the academic job market and its changing career perspectives. The curriculum of the Human Resources Department includes e.g. development of management skills, team development, basic business skills as well as self-assessment coachings. For individual support please take advantage of a personal appointment at

personalentwicklung@hs-gm.de

13.10.2022	HELLO AGAIN! Lecture Seminar Series @ Gründungsfabrik incl. food, drinks + elevator pitch
27.10.2022	Konni Biegert, Institut für Obstbau <i>Smart Horticulture - Application of sensors and modelling in apple production to predict postharvest fruit quality</i> Björn Poss, Institut für Technik <i>Variable-rate ISOBUS-compliant spraying in vineyards by fusing map-based and real-time 3D canopy characteristics</i>
10.11.2022	Caroline Gilcher, Institut für Getränkforschung <i>Investigations into functional constituents of citrus fruits and derived products as well as their metabolization in humans</i> Markus Jungen, Institut für Getränkforschung - Food fraud or lack of GMP? Authentication of Citrus juices
24.11.2022 online only!	Maria Bönisch, Institut für Landschaftsplanung & Naturschutz <i>Methods for identifying, planning and establishing genetic reserves for wild plants with importance for food and agriculture for sustainable food security</i> Doris Häge, Institut für Lebensmittelsicherheit <i>Sensory and technological properties of rarely used spring cereals regarding their suitability for brewing and baking</i>
08.12.2022	Stefan Dußling, Institut für Getränkforschung - Enrichment of polyphenols in fruit drinks for the reduction of their cariogenic potential Barbara Richter, Institut für Wein- & Getränkewirtschaft - Partnering strategies in vertical coordinated value chains
15.12.2022	Jana Furtwengler, Institut für Phytomedizin <i>Development of a breeding-system for Crabronid wasps (Hymenoptera: Crabronidae) as antagonists of aphids in vegetable and ornamental crops</i> Friederike Schnitker, Institut für Getränkforschung <i>Trapped ion mobility spectrometry for the analysis of plant metabolites and their degradation products in grapes and wine</i>
12.01.2023	Cecile Kahn, Institut für allgemeinen & ökologischen Weinbau - Study of the impact of atmospheric CO₂ level on grapevine leaf physiology berry maturation and composition at harvest using a FACE System (Free Air Carbon Dioxide Enrichment) System Acronym: GRAPEFACE Meike Strobach, Institut für Oenologie <i>Virtual reality (VR) in sensory science - Impact of real and virtual tasting environments on the sensory evaluation of test samples and wine</i>
26.01.2023	Guest Lecture by Prof. Dr. Kai Velten, Hochschule Geisenheim "Alles geht. Ein kleiner Ausflug in die Wissenschaftstheorie"
09.02.2023	Guest Lecture by Prof. Dr. Moritz Wagner, Hochschule Geisenheim "Sustainability: How can you contribute?"

EINFÜHRUNG IN DIE DATENANALYSE MIT R I+II

Prof. Dr. Kai Velten, Hochschule Geisenheim

Der Workshop vermittelt die Grundlagen der Datenanalyse mit R basierend auf dem neuen "Crashkurs R". Der 1. Teil konzentriert sich auf grundlegende Fakten und die Vermittlung effektiver Workflows mit einem Fokus auf die Umsetzung des "Reproducible Research"-Paradigmas in R Markdown. Der 2. Teil vertieft die im 1. Teil besprochenen Strukturen und Operationen und gibt eine grundlegende Einführung in fortgeschrittene Themen wie Programmierung und interaktive Grafiken.

11. / 25.11.2022 * 2 - 6 pm

HS 30 / HS 8 and online

OPEN SCIENCE I+II

Dr. Laura Rodriguez, Hochschule Geisenheim

Open Science is on everyone's lips, but the application of the underlying scientific working methods and communication channels is often difficult in practice. In order to open up one's own research and results to others, participants are taught to

- make research transparent, comprehensible and usable,
- strengthen collaborative work and
- promote the transfer of knowledge beyond the narrow boundaries of the discipline, especially into society

5. / 6.12.2022 * 10 am - 12 pm

online

SCIENTIFIC INTEGRITY

Dr. Andrea Kliewer, Universität Jena

The participants will explore the differences and grey areas between good scientific practice, questionable research practice and scientific misconduct. They will learn how misconduct can be recognized and prevented and how it should be addressed and dealt with in case it occurs, and what damage it can cause if handled improperly. The content of the course follows the curriculum "Good scientific practice" and the DFG codex.

22. / 23.02.2023 * 9 a.m. - 5 p.m. + 9 a.m. - 1 p.m.

online

POSTER DESIGN I+II

Dr. Susanne Berger, Visual Science Communication

Academic posters are a useful communication method to present your PhD project. We will determine what should be on the poster and how we can communicate it efficiently. You will learn how to produce an aesthetically pleasing and effective poster.

15. / 16.12.2022 * 9 am - 1 pm

online

DATENVORBEHANDLUNG UND MULTIVARIATE DATENANALYSE

Dr. Claus Patz, Hochschule Geisenheim

Beim Umgang mit Daten, die mehr als zwei Variablen enthalten, wird die multivariate Datenanalyse verwendet, die es Ihnen ermöglicht, ein tieferes Verständnis Ihrer Daten in Bezug auf ein bestimmtes Szenario zu erlangen.

10. 01.2023 * 9 am - 4 pm (incl break)

12.01.2023 * 10 am - 1 pm

HS 11 (Monrepos)

October 2022

13.10. 3:30 pm	Lecture Seminar Series Kick-Off @ Gründungsfabrik incl. drinks, food + elevator pitch		Gründungsfabrik Winkler Str. 100b Geisenheim	in-person only registration via email susanne.daniel@hs-gm.de
