2. DRINK INNOVATION CHALLENGE

After a successful first edition last year, the project team of the „Gründungsfabrik Rheingau“, together with experts from research and industry, invites you to the „Drink Innovation Challenge“ (DIC) for the second time. Under the motto „Your Drink comes true“, innovative and delicious ideas for non-alcoholic beverages are being sought, which at the same time should take up aspects of sustainability. You are cordially invited to participate as an individual or team!

As the motto suggests, your idea should not only be thought through, but in the best case be realised and bottled at the Beverage Technology Centre of Geisenheim University (HGU). In addition, attractive prize money, exciting industry contacts and more await you. The competition will be accompanied by exciting

lectures on the core topics of the competition - innovation and sustainability. In this context, Vanessa Mark from the sustainability office of the HGU and Dr. Jan Christoph Munck-Rieder (EBS) will work out with interested parties in a creative innovation workshop on 18 April 2023 under the title „New & Sustainable - Idea Meets Responsibility“ how innovation is created and in which direction the competition will develop.

Prof. Dr. Moritz Wagner (Institute for Applied Ecology at HGU) will provide participants and interested parties with helpful information on assessing sustainability and avoiding risks such as green-washing in the sustainability workshop „Sustainable Beverages - how to go green“ on 4 May. The DIC application window is now open at www.gruendungsfabrik-rheingau.de. The deadline for submission is 21 May 2023. After pre-selection by the expert jury, the best idea will be determined and selected during a final pitch event at the career fair „meet@hochschule-geisenheim“ on 21 June 2023 at Geisenheim University of Applied Sciences.
