

A taste of the new semester!

ASTA NEWS

Hopefully you are currently enjoying all your semester holidays! Nevertheless, before the start of the winter semester 2019/20, we would like to send you a little newsletter, filled with future events of the AStA, of the university, our university town and everything around it. We are looking forward to welcoming you again at the Ersti Rallye or the Old Weinfass in the new semester from mid-October!

Your AStA

AStA Office

Of course, the AStA office will be at your side again next semester. In the store you will still find highlighters, blocks & Co. at reasonable prices!

The office opening hours will be announced at the beginning of the semester - at the latest in the November newsletter.

The Old Weinfass

16.10. - Weingut der Hochschule - "Introductory - barrel"

23.10. - Weingut Aßmann - "Mayor - Barrel / StuPa - Barrel"

30.10. - Weingut Münzberger - "Halloween"

Become part of the AStA!

With the coming semester, we are also looking generally energetic support in all areas.

Do you like to join in, take pictures as a hobby, have experience with the DJ or just want to give your classmates a nice evening?

Then contact us by mail: Veranstaltung@asta-geisenheim.de

You will be included in our general helper pool and we will contact you directly for future events!

Mentor program WS 2019/20

As every year, we are all faced with the gratifying event that we can again welcome a large number of first-year students for the winter semester of 2019/20. And as in the last WS, we want to give you the opportunity, just as it was given to you, to simplify the new geisenheimers the entrance to our beautiful university something and to stand with much advice and practical help.

If you do not know our program, here is a short explanation:

Each **mentee** (first year student) will be assigned a **mentor** (You !?) from the same study course, if possible. Your task will be and should be to help the **mentee** with answers to questions and help with problems around the student and campus life.

Maybe you have had a mentor by your side at the beginning of your studies and therefore appreciate how it feels to have a point of contact in the first weeks of university life.

But even if you have successfully found your way into the Geisenheim student life without a mentor, you are more than welcome to bring your personal experience and your university know-how here to the man or to the woman. How intensively and comprehensively you will be support and work here, of course, its depends on you in the end.

If we have won you here as potential mentors, it is important that you promptly on the appropriate form on <https://www.hs-geisenheim.de/studium/studierende/studierendenvertretung/asta/> sign up. Through your information in the appropriate fields, we can then assign you to a group of mentees. We hope that this will make it easier to get in touch with both sides for the first time.

If you still have questions regarding the program, which were not explained in this letter, you have the opportunity at any time to contact us at the following e-mail address: mentorenprogramm@asta-geisenheim.de

We appreciate your participation and thank you in advance for the cooperation and your commitment!

Helpers wanted

Summer is slowly coming to an end and we are in the middle of planning for the start of the new semester. **Help us** to make the coming Erstis a proper start, which you also had.

For the following events we still need active support:

Summer School "Climate change research methods"

Summer School

This summer school, organized and sponsored by Hochschule Geisenheim University, the Doctoral Platform Geisenheim – Gießen – Marburg, l'Université franco-allemande and ISVV - Institut des Sciences de la Vigne et du Vin, Université de Bordeaux will introduce students to methods for the study of the impact of climate change on special crops.

Students will delve into topics such as the global carbon cycle and non-CO₂ greenhouse gas exchange between soils, plants and the atmosphere. The methodological spectrum covered in lectures and hands-on experiments ranges from various means of gas exchange measurements, the use of isotopes in ecosystem studies and statistical methods to analyze large datasets. In addition to these scientific methods, students will be introduced to different communication techniques applied to the special challenges of conveying climate change facts as well as other scientific results to a non-scientific community.

The summer school is free of charge. Accommodation and transport have to be covered by the participants.

A small number of scholarships will be available.

Höllengassen party Assmannshausen

Event

The night is not just for sleeping. Even if we bed you well, Assmannshausen offers an unrestrained selection of evening entertainment and good humor.

Urgemütliche cellar bars and wine bars, dance bars and taverns with concentrated mood make the night short and the flirtation with the proverbial Rhenish cheerfulness long.

Experience the cozy street party in the heart of the red wine town of Assmannshausen. Visit the "Höllengasse" at the foot of the famous Höllenberg.

Rheingauer Wine market in Frankfurt

Festival

Rheingau winemakers present fine wines on Frankfurt's "promenade" Freßgass'. More than 600 wines and sparkling wine from the Rheingau are offered for tasting at 25 wine cellars. The bow spans from the finest wines to light and tangy summer wines and, in addition to the Rheingau-dominating Riesling, wines made from alternative grape varieties are also served.

Traditionally, the wine and sparkling wine offer is complemented by food stalls of the Freßgass' residents. These offer a traditional and international food offer. It also includes Leberkäse, Haxen or Bratwurst, such as spare ribs, Thai, Chinese and Italian specialties to Flammkuchen.

RhineCleanUp

Call to join!

On September 14, the transnational action RhineCleanUp takes place. From the source to the mouth numerous cities with thousands of volunteers take part in clearing the banks of the Rhine from garbage. Our university town Geisenheim supports this action day together with the health food store Naturkost Sonnenblume, the Nassauische Sparkasse Geisenheim (Naspa) and the restaurant Zwei und Zwanzig. Start is on Saturday, September 14, 2019 at 10:00 clock at the tasting stand Geisenheim with welcome by Mayor Christian Aßmann. The first squad "Team Naspa", with employees of the local bank branch, will make the Rhine bank in the direction of Rüdesheim directly afterwards. At 2:00 pm, the second team "Sunflower" also starts from the wine tasting stand in the direction of Oestrich-Winkel. Equipment such as garbage bags, gloves (except for children), pliers and safety vests are

provided by the Naspa for both teams. The construction yard of Stadtwerke Geisenheim takes care of the disposal. Drinks are served by the restaurant Zwei und Zwanzig and Geisenheimer Naspa.

"The message is clear: everyone can do something. Our environment concerns us all. This action helps to raise awareness," says Mayor Christian Aßmann and would be happy if as many Geisenheimer participate in this action.

For more information on the action day, see www.RhineCleanUp.org
